Add all of the ages of the contestants in the routine and then divide by the number of contestants. **THIS AVERAGE MUST INCLUDE ALL PERSONS APPEARING ON STAGE AT ANY TIME DURING A NUMBER.** Round the decimal point when averaging ages (an average age of 15.5 would compete in the Senior (ages 16-19) division. You must compete in the average age at which your routine falls. Additionally, if a protest regarding age arises all competitors must be prepared to provide proof of age. All protests must be presented in writing within 30 minutes of the incident and presented to the Director or Host of Star Talent Productions. All protests must be signed. In the event a protest regarding age occurs, we will require this proof. Please make sure to bring proof of age with you to the competition.

Nationals: If there are any substitutions of any performers for nationals, the ages must then be recalculated and the group must then compete in the age division for which they fall during the performance.

Our **bump rule** states that duet/trios or groups including dancers of different age divisions will compete no more than one age division younger than the oldest dancer, regardless of average age. For example: if a group includes a dancer age 16 (senior) and the average age is 11 (junior), the group will compete one level above junior – age 13 (teen)

Petite: 7-9 years
Junior: 10-12 years

Competitive Divisions

Levels should be based on more than hours in the studio

Our judges do have the option to bump a routine if they unanimously deem the routine choreography and ability of the dancer above the level entered.

Studios are required to assign a competition level for EACH performer when they are entering their roster in the registration system. Please be certain that you are entering your performers in the CORRECT PERFORMANCE LEVEL. NOTE: DANCERS MAY ONLY BE REGISTERED AT ONE LEVEL...Any dancer found to be registered in more than one level may be disqualified (This includes if a dancer's name has been entered into the system with a 'slight difference' in spelling but is the same dancer). Dancer's levels WILL NOT be able to be changed once entered without consent of a Star Talent Productions Director..

ASSIGNING LEVELS

The following guidelines are suggestions to be used in determining the appropriate level placement of each competitor. We rely on integrity of good sportsmanship of studios when entering level placement for their students. Our judges are permitted to move any routine that they feel is placed in a level below their ability to the level in which they feel is reflected through performance. **All judges decisions are FINAL. If the judges determine that a routine should be moved to a different level, and that level has already competed, the routine will then be eligible for adjudication only.**

Routines may be bumped up prior to scheduling for any performances that fit above the level calculated through Dance Comp Genie. However, routines with the exact same dancers must compete in the same age division and level. Please contact us if you would like to move the routine to the next level. Routines may not move down in levels auto calculated. SOLOS MUST COMPETE AT THE LEVEL IN WHICH THEY ARE REGISTERED ON THE STUDIO ROSTER.

Level placement is determined by a combination of factors, including technical skill, performance ability, years of dance and competition experience, and each dancer's individual ability, retention, and work ethic. While we still use training hours as a guiding reference, hours alone cannot define a dancer's true level—skill set and performance quality must also be considered. We trust each studio to place their dancers where they genuinely belong, not simply where they may score best. Please note that judges hold the final authority on level placement and may adjust a routine's level if unanimously deemed appropriate.

Please use the structural elements and flow chart as a guide when determining the appropriate level for your dancers. For group routines, the registration system will automatically calculate the routine's level based on the dancers entered.

Elite dancers are not permitted in Excel Small Groups, Large Groups or Lines.

While group routines may feature dancers with advanced skills, the overall performance must reflect the level at which the routine is entered. If a routine showcases a level of difficulty significantly above the entered level, it may be reclassified.

To voluntarily move your routine up a level, please contact our office.

At the discretion of the judges, any routine that is determined to be placed in a level below the performers' demonstrated ability may be moved to the appropriate level. All judges' decisions are final.

If a routine is re-leveled and the new level has already completed its competition, the routine will still perform and receive adjudication only, but will not be eligible for overall awards in that level.

Star Talent Productions staff and judges reserve the right to adjust the level placement of any routine as necessary to ensure fairness and integrity in the competition.

Dancers Must Compete in the Same Level or higher at Nationals as they Compete in at Regionals.

Group exceptions may be made in the case of losing multiple students of a particular level in a group routine. The situations must be addressed with the Star Talent Director at the time for national registration.

Nationals: If there are any substitutions of any performers for nationals, the ages must then be recalculated and the group must then compete in the age division for which they fall.

Judging and Awards Contestants will be judged by a panel of competent judges, and all entrants agree that the time, manner, and method of judging the contest shall be solely within the discretion of the director of Star Talent Productions and that **all judges decisions are FINAL.
